SHELDON PETERSON MURDERED ON THE CRYSTAL SPRINGS ROAD

Pool of Blood Found in Burlingame Baseball Park is Thought to be Connected With Crime

Evidence linking the finding of body of Sheldon Peterson, San Mateo radio dealer, murdered in the Crystal Springs road, and the finding of a pool of blood on a baseball park at Burlingame was given before a coroner's jury in Redwood City Thursday.

The first to be found was the pool of blood, which was found due to what had occurred, however, except the blood the earth disturbed as though a had taken place.

Peterson was found morning sitting in on the Crystal Springs road, and a west of San Mateo. Investigations proved that Peterson was killed by a bullet in his head. Testifying before the coroner's jury, Police Chief John J. Harper, Under Sheriff P. J. Larrecou and Traffic officer Leland S. Bond declared their investigations had disclosed suicide would have been impossible. There were no powder burns on the head, they said, two empty cartridges were on the floor of the car and a bullet was found imbedded in the door of the car on the side from which another bullet entered the dead man's head.

Peterson was slain by a bullet that entered the left temple and went through the head. Although physicians said Peterson had bled greatly before death, no blood was found in the car.

The latter circumstance links the case with the finding of the pool of blood in Burlingame on Monday morning. Chief Harper said it was his theory that Peterson was slain some time Sunday night in the park, and that his body had been removed to his car, the machine driven to the road and abandoned.

The body had been carefully propped in the car, Harper said, in explaining his theory that no man could have shot himself and then remained sitting up in the car.

When found only $1.40 was in the pockets of the dead man, it was given at the inquest testimony that he generally carried large sums of money with him. They also testified that he had no enemies that they knew of. From these circumstances, it is supposed that the man was killed for robbery.

Peterson, who lived at 612 Fourth avenue, San Francisco, is survived by a mother, and a 5-year-old daughter. His wife passed away about two years ago.

SWITZERLAND OF AMERICA" PROVED ENTERTAINING

An illustrated lecture entitled "Switzerland of America," which the Y. P. U. of the Baptist church gave the public was highly entertaining and instructive. Starting in Northern California, the lecturer, Mrs. A. Parker, carried his audience through Nevada, Utah and over the part of Colorado, visiting among the clouds. Mountain peaks covered with perpetual snow, canyons with walls a half mile high, and lakes fed by great glaciers. Mr. Parker has been asked to repeat the lecture.

BUSY TIMES AT LOCAL CANNERY

The canning season will be in full blast in the local branch of the Pratt-Low Preserving Co., according to J. A. Gibson, manager of the local plant. The cannery is now engaged in the preserving of apricots. The apricot crop this year is not as good as was expected, owing to the unusual weather experienced during the maturing period of the fruit. Enough first class apricots have been obtained to keep the local plant busy, however, and many carloads of the high quality product of the Pratt-Low Company will be shipped to all parts of the United States.

The peach and pear crop Gibson stated bids fair to be the best crops of these fruits since the opening of the plant here and a heavy season of canning is expected which will last well into the fall.

The 50 cottages and tents of the cannery are all filled with out-of-town people, who have come here for the canning season. The company is encouraging the employment of local people, and the greater part of the force of the plant will be made up of local people, chiefly women, who can thus increase their income during the summer with pleasant work. The cannery will employ about 750 people this summer and the payroll will be from $10,000 to $12,000 a week.

The large amount of money distributed by the preserving company here during the summer months will be a great help to the merchants of Redwood City, as practically all of it is money which would not otherwise have found its way to Redwood City, and the greater part of it will be spent here in town.

Mayfield Will Join Palo Alto

The town of Mayfield has ceased its individual existence and is now a part of Palo Alto as the result of an election held Thursday in Palo Alto. The result of the election was 1,094 for the annexation and 441 against it.

The people of Mayfield had voted some time ago on the proposition and had cast a majority vote in favor of joining the larger town. The vote at that time had been carried by a majority of 75. The campaign in Mayfield was fought with great bitterness and several near riots occured on the day of the election.

This new addition to Palo Alto increases the population of that town from 9,300 to 10,500.

STOCK OF LOCAL MERCHANT ON SALE

Owing to financial difficulties into which the Knox Dry Goods Co. had fallen, the entire stock of that well-known institution has been placed on sale by trustees representing the creditors of the local merchant, and will be sold far below the usual prices of such goods in order to raise enough money to liquidate the indebtedness of the concern.

The sale was begun yesterday and a large numbers of purchasers are already taking advantage of the unusual prices offered.

As it is necessary that a large sum of money be raised in order that the Knox Dry Goods Co. may continue in business here, the sale will continue for such time as all debts are paid. The ceditors of the concern are demanding a settlement immediately, and the sale is their only resource. Prices are, therefore, not be considered. The only object is to raise money quickly, and the resulting bargains are offered to the people of Redwood City and vicinity.

STATUS OF THE BAY SHORE HIGHWAY

Mayor H. F. McNallis of South San Francisco in a lengthy report concerning the Bay Shore highway situation has recounted each step of the long flight for this road in San Mateo county. The report was issued by Mayor McNallis to make clear the status of the proposed road to the general public, as much misunderstanding appears to result from a lack of information concerning this issue.

In regard to securing money for the construction of this highway, which is now being built as far as Burlingame, and will be continued to the Dumbarton bridge and to San Jose, if present plans are carried out, the report says:

"On June 24, Chairman Toy of the State Highway Commission, notified us as follows:

"It appears from our financial statement that we have about $3,000,000 available from old federal aid and during 1926-27 will have about $5,000,000 additional federal aid. This in round figures gives us about $8,000,000 which is the only money we have for new construction during these years. The new federal aid may possibly have to be divided 50-50 between the north and the south. The old federal aid is divided on the basis of the milage of roads in the two portions of the state, namely 64 per cent in the north and 36 per cent in the south.

"Out of the money to be used in the north, there is nothing so important in my opinion as the following three jobs on the Bayshore highway:

First—Construction of underpass beneath tracks of S. P. R. R. at South San Francisco, which will cost about $175,000.

Second—Graveling the section at present under contract from the railroad tracks at South San Francisco to Burlingame at an estimated cost of $100,000.

(These two jobs will make available for use on the new road now under contract to Burlingame.)

Third—Graveling and grading a new section of road from end of present contract south to San Mateo at an estimated cost of $100,000.

Total estimated cost $375,000.

In regard to the construction of roads connecting with this new road by the cities and by the county the report continues:

"There will be left (over out of the contribution of Sn Francisco to the Bayshore highway construction about $100,000, leaving the net expenditure to the state about $275,000 to complete this most necessary work.

"The natural conclusion, therefore, is that if the Highway Commission will provide $275,000, the Bayshore highway now under construction between South San Francisco and San Mateo can be graded and graveled and the underpass at South San Francisco constructed and that immediately upon the announcement that the $275,000 has been provided, then provision can and will be made in San Mateo county to provide the necessary laterals referred to above, and South San Francisco can and will provide the three local highway connections at South San Francisco, and in addition thereto action by the city and county of San Francisco to provide $1,500,000 for the construction of that portion of the Bayshore lying within San Francisco can be expected.

"Thus, concretely stated, if the Highway Commission will provide the $275,000 it will place San Mateo county and the city and county of San Mateo county and the city and county of San Francisco in a position to provide in the neighborhood of $1,750,000 for its portion of the necessary work on the Bayshore highway, its laterals and connections, and will mean a provision all told of approximately $2,000,000 to carry forward the work on the Bayshore highway.

"This statement is issued to make the situation relative to the Bayshore highway entirely clear to the members of our delegation and to the public."

ACCIDENT RESULTS FATALLY FOR HENRY HIRONYMOUS

Henry Hironymous passed away at the Community hospital yesterday morning, after a weeks' illness caused by an accident received while operating a feed grinding machine on the E. R. Lam ranch at Ravenswood last week. The accident resulted in about severing his right arm from his body, and the shock resultant at his age is attributed as the cause of death.

Mr. Hironymous was a native of California, age 65 years. The greater part of his life was spent in Nevada, where he had been engaged in the hotel business and farming. For the past five years he has been in the poultry business in Ravenswood.

Mr. Hironymous is survived by his wife, Mrs. Jennie Hironymous of San Francisco, one daughter, Mrs. Kathleen Vicks of San Francisco and two sons, Ray and Gerald Hironymous of Sacramento; a sister, Mrs. Fred Dangberg of Minden Nevada; and Frank and Wesley Hironymous of Yerington, Nevada. Mr. Hironymous was an uncle of Carlton Hiroynmous, employed for several years in the local office of the Pacific Title & Insurance Co., and now manager for that company of their Stockton office.

Funeral services will be held Monday at the chapel of the James Crowe Co., and will be followed by cremation at Cypress Lawn cemetery.

KIDNAP PLOTTERS PUT THE BLAME ON SENSATIONAL LITERATURE

Two Youths Jailed for C. D. Jackling Plot Write Note: Say Wanted to "See Life." They Have.

The reading of the sensational type of fiction and so-called fact in which crime and criminals so prominently figure, is blamed by two youths now in the county jail in San Francisco for their present predicament. The two boys are Russel Crwford and Bliss Baker, who are now in the San Francisco bastile facing serious charges by Col. D. C. Jackling of Woodside.

The men were arrested for having sent a note in which Jacking was directed to leave a large sum of money for them at a certain place. The failure to do so was to have resulted in the abduction of Mrs. Jackling, who was to then have been inoculated with a lothsome disease. The source of the note was traced and both men arrested.

Crawford was arrested in Palo Alto on his way to San Jose from Belmont, where his mother is an attendant in a sanitorium. When brought to the jail here and questioned Crawford assumed an air of bravado and stated that "this little affair" was an experiment. He had hopes of being a writer, he said, and wanted to know life. "We made a mistake," he said, "but not one man in a million could have got as far as we did."

In the cell in the jail in San Francisco the two youths wrote another note addressed to Mr. and Mrs. Jacking in which they humbly appologize for the threat they had made. The same tinge of the sensational story invades even this humble missive, however. They say in part:

"It is easy to understand this confession as a "crawling in the dirt" to escape what we deserive as ordinary felons. But please believe us when we say that the entire plot was due to our lack of common sense and mental balance.

"We are both avid readers in criminology. Russell is preparing himself to be a lawyer. I am interested in the subject as a hobby, and also because I hope some time to be able to write—and to do this one must know life not only through a study of the righteous but through a keener appreciation of a good man or woman by contrast with his or her less righteous kin.

"But mere theory seemed to us for some reason insufficient. And when we were carried away by the spirit of experimentation in desiring to put theroy into practice, to test it, we lost reason, it seems, and wronged you—shamefully."

The Woodside man is preparing to prosecute the case to the limit.

WOODSIDE MAN INJURED ON RAILROAD CROSSING

When driving his car across the railroad crossing at Main street Wednesday, Burt Barateaux of Woodside failed to see an approaching train and was seriously injured. Barateaux had waited for the passing of a north bound train and had driven onto the track in front of a train leaving the station for the south.

The car in which the Woodside man was driving was completely wrecked and was thrown against another car which was waiting at the crossing and belonging to M. D. Carmichael of this city.

Barateaux was taken to the Community hospital at Beresford, where it was found that he was suffering from internal injuries. His condition, though serious, is not thought to be fatal.

WHITE OAKS SALE MADE THIS WEEK

An agreement of sale was filed in the office of County Recorder T. C. Rice yesterday whereby the Municipal Properties Company agrees to purchase a tract of land consist of 282 acres from Ethel Fraser Prentiss of Los Angees. The tract is known as the White Oaks and is located across the creek from Redwood City and was formerly the property of the late Nat Brittain. It is the strip of land fought over by San Carlos when that place desired to include it in its proposed boundary line when it petitioned the supervisors to incorporate the town. Redwood City opposed the matter and the board decided to leave it out of the proposed boundary. The holding lies between Redwood City and the new incorporation and at present known as "No Man's Land."

According to the agreement $1200 per acre was paid for the realty. The sum of $10,000 was paid at the execution of the agreement, $15,000 is to be paid in 90 days and $75,000 in six months and a trust deed is to be given for the balance. The new owners are the people who are selling the Devonshire properties at San Carlos. They are live wire operators and will at once subdivide the land and offer it for sale in small tracts. White Oaks is considered one of the choicest properties on the peninsula.

Momus in Mythology

In classical mythology, Momus was the son of Nox, and god of mockery and ridicule. He delighted to rail at the actions of men and gods, sparing no one except Aphrodite, in whom he could find nothing to criticize, and in consequence vexed himself to death. It is said that he found fault with the man made by Hephaestus, because there was no window in his breast through which his secret thought might be seen.—Kansas City Star.

Independence Day

ONE HUNDRED AND FORTY-NINE years ago a great lesson was learned by a German King upon the thrown of England, a lesson which has been learned at one time or another by every monarch in the world today, namely that the divine right of kings and the rights of the people are one and synonomous. The signing of the great document whose anniversary we celebrate today settled that for all time. It also assured that Englishmen whether they should stay in England or be colonists in the great new world were to possess a freedom greater than the power of any king or emporer to deny.

The signing of the Declaration of Independence by a group of English citizens at Philadelphia in 1776, like the signing of the Great Charter by the ancestor of the very king to whom this document was addressed marked a turning point in the affairs of the world. The great charter of America is the complement to, and finished the work of the Great Charter of England.

It was not long before that Luther had spread the word abroad, "Every man his own priest." The words were still fresh in the ears of the American colonists of England. Here they were changed and thrown back to monarchial Europe from whence they had come, "Every man his own king." The matter was out, the people understood that a king could rule only by the consent of the people, and the divine right was relegated together with the power of the crown to the relics of the Tower of London.

That was indeed a memorable day for America and for the world. A new principle had been thrown into the crucible to be tried out. The very men who proposed it knew that every flaw of their work would be picked upon by the enemies of freedom, and that the rights of the people would depend upon the wisdom which they, who then lead the new nation, displayed. Today, after nearly a century and a half of operation the principle of freedom has not yet been firmly established, not so firmly as to be secure. The freedom of the people now, as then, is bought at the price of eternal vigilance. What the nation will be in another century and a half we cannot tell, but what it will be, will be largely the result of what we are and what we do today. It is for us to guard the freedom gained in 1776 and to pass it on undiminished to our posterity. We cannot, with honor, do less.

A Good Fight

THE Society for the Prevention of Cruelty to Animals has issued a pamphlet concerning the roedo and will, we hope, make a strenuous effort to have these barbarous exhibitions of cruelty made very unpopular, if not unlawful. The roedo is at best an unnecessary and fiendish show of human cruelty, and is contrived to sate the beastly passions of a bloodthirsty mob.

Texas has passed laws forbidding this form of so-called sport. Similar laws should be passed in every state where the rodeo is held, and all aid should be given the S. P. C. A. in their efforts along this line.

What sport is there to seeing the agonized antics of a pain-crazed steer, thrown so heavily to the ground that ribs are broken and in some cases torn loose from the back bone? Then to see this injured animal trying to fight off the attacks of another animal, who claiming the distinction of having been created in God's image, twists the neck of the poor brute the while his hands are gripping the sensative membranes of the creature's nostrels.

Why do civilized people stand for such cruelty? Why do they howl with glee at the antics of a horse whose back has been wet with acid or other burning liquid to make him buck, or around whose sensative flanks a rough hard rope has been tied to cut into the horse's flesh at every move, that he may appear the more active?

Is it necessary that in this so-called enlightened age that animals must be tortured to death by fiends who from their deveitry, would appear more at home among the devils in hell, in order to provide a holiday for the mob? Why condemn the Romans who delighted at the sight of maidens being clawed to piece by lions in the arena, when the same passions, the same thirst of blood and the same gloating over the spilling of helpless creatures animates the crowds in our own country today?

We wish all power to those who are fighting to have this blot removed from our otherwise advanced civilization. We hope soon to see the day when the mere fact that an animal is helpless will not make it the object of man's most highly developed cruelty.

JAZZ INVADES CHINA

WE note in the foreign news dispatches that jazz has displaced the one-stringed fiddle and flagelot on the Chinese stage. This may be considered as a sign that the Chinese as a race are losing the little taste for music which they had. THEFT OF WIRE LANDS P. G. & E. MAN IN JAIL

Caught in the act of removing a large quantity of copper wire from the plant of the Pacific Gas and Electric Company here, where he is employed, Luther Perry is now at the county jail, charged with burglary. The detection of the crime was the result of suspicion by the company as the result of heavy losses of copper wire from the plant. Officer Bill Douglass of the local police force was commissioned to watch the place, and while on guard he saw Perry come to the plant and load a quantity of wire in his car. The man was immediately arrested and lodged in jail.

Following the arrest Walter Kellogg, manager of the company, and Chief of Police C. L. Collins went to the man's house at Colma, where a large quantity of copper wire was found. This had had the insulation burned off and was ready for sale.

It is thought by Kellogg that the arrest of Perry may lead to the disclosure of an organized plot to loot the company, as similar losses have been reported from all parts of the state. The police are now tracing the parties who disposed of the wire in the city, as it is believed that this information will implicate the thieves who have been operating in other plants of the company.

FUNERAL SERVICES HELD FOR STEPHEN SUDDIJAN

Funeral services were held Thursday for Stephen Suddijian, who passed away at the Community hospita. Services were at the parlors of Layng & Tinney and were conducted by Rev. Abert E. Clay of the local Episcopal church. Interment was in Union cemetery.

The deceased was a native of Constantinople, 58 years of age, and had been a resident of this city for 17 years. His death was the result of a sun stroke suffered a short time ago in the San Joaquin valley as he was taking his neice who was sick to her home in Selma. The neice passed away on the same day as her uncle.

Suddijian was a carpenter and made his home at 216 Lincoln avenue. He is survived by two sons, L. S. and C. Suddijian, and a sister, Miss V. Suddijian, all of this city.

Bidders Active At Sale

An evidence of the big demand for real estate in San Mateo county was given last Thursday at the delinquent tax sale of property by Tax Collector A. McSweeney, when all but one parcel was eargerly bought by a big throng of anxious prospective real estate holders. There were 215 parcels of delinquent property offered for sale and all but one lot located at Miramar were sold after spirited bidding. The highest parcel located at 4West End Homestead brought $500 and was sold to Matt Callaghan, and the lowest price was 80 cents for a lot near Mira mar. A few years ago only a few people people would gather to purchase the choice pieces and the rest would revert to the state. On Thursday the tax collector's office was crowded with people eager to buy no matter where the land was located, even a lot on the side of a sterile mountain would be bid for. McSweeney proved himself a clever auctioneer securing the sum of $1780 from the sale.

1808 ARRESTS MADE BY COUNTY TRAFFIC SQUAD

The report made this week by Will H. Marsh, chief of the state division of motor vehicles shows some interesting figures in regard to the work of the traffic officers in this county. There were 1808 arrests made by the men in this county in the first six months of this year, of this number 1695 were made for vfolation of traffic regulations. Fines totaling $2991 were collected, the report show, and delinquent fees to the amount of $189 were also collected. The report shows that the officers composing the traffic squad in this county rode a fotal of 41,889 miles during these six months.

FRAUD CHARGED IN PROPERTY CONVEYANCE

Charging that Fred Leavitt secured title to a piece of land by means of fraud and trickery, Henry Crowhurst of this city this week filed suit in the Superior court here for the setting aside of a deed which he had given to Leavitt. In his complaint which was filed by A. J. Stebbenne the plaintiff charges that in order to gain possession of this lot Leavitt had supplied him with liquor and that almost constantly since December 15 of last year he had been kept under the influence of this liquor supplied by Leavitt.

While in a condition of stupor from the liquor thus supplied Crowhurst charges, Leavitt had him sign a deed on May 20 of this year by which he conveyed to Leavitt lot 22 of the Lee tract in this city.

Crowhurst asks that the deed be set aside by the court and that all title of the defendant to the property be declared void.

"OLD HOME WEEK" TO BE SEQUOIA FEATURE

"Old Home Week," the new Paramount picture, will play at the Sequoia Theatre next Wednesday and Thursday, July 8 and 9. It offers a combination of an exceptionally interesting story and a brilliant star.

It was written by George Ade, famous American humorist, and serves as a starring vehicle for that personable and popular screen idol, Tommy Meighan. Tom Geraghty, one of the best known scenario writers in the business, wrote the film adaptation, and Victor Heerman performed the directorial honors.

Meighan has a particularly sympathetic part in this picture — that of a likeable young chap who fails to make a success in New York and returns to his home town. The fun begins when the local citizens get the mistaken impression that he is the president of a big oil company of New York. For a time Tom is a veritable hero, but his triumph is short-lived. Even "the only girl" turns against him when he is publicly exposed.

From that point the plot develops several dramatic complications, but in the end, Tom proves his business ability, when by a bit of strategy he turns the tables on a couple of crooks, who try to swindle the townspeople through a fake oil deal.

Wholesome, humorous and human, "Old Home Week" is the type of photoplay that provides ideal entertainment. Lila Lee, Larry Wheat, Charles Dow Clark, Max Figman and Charles Sellon are among the prominent players who appear in support of Mr. Meighan.

EVE'S SECRET HAS EVERYTHING

Eve's Secret," a new Paramount picture co-starring Betty Compson and Jack Holt, which will be the feature at the Sequoia Theatre tomorrow, Saturday, July 5, at Matinee and evening show, is the story of a Duke, who falls in love with a pretty peasant girl and sends her to Paris to be educated and then has the time of his lite keeping her for himself.

The chateau of Jack Holt, Duke of Peltava, overlooks the picturesque little French village of d'Enville. Following a banquet, the Duke discovers the Princess, the woman he loves and is to marry, in the arms of another man. A duel ensues. The Duke kills his adversary, adding another victory to an already long list which has earned for him the title of "The Killer."

So it is that the Duke becomes disillusioned and loses all faith in the women of his own rank and turns elsewhere in his quest for happiness. But it is not until another duel passes by the boards with the Duke geting the worst of it for the first time in his life, that he finally finds it.

"Eve's Secret" has everything — action, thrills, drama, love-interest and comedy-relief. The story is based on the Broadway stage success, "The Moon-Flower," by Zoe Akins. Clarence Badger directed, and Adelaide Heilbron wrote the screen play.

William Collier, Jr., heads the cast playing in support. Others include Vera Lewis, Lionel Belmore and Mario Carillo.

MAN ARRAIGNED ON MYSTERY SHOOTING

Edmond Scott, assistant district attorney, charged Frank L. Smith, a rancher with assault with intent to kill this week when Smith was arraigned in the court of Judge Wightman of Halfmoon Bay. Smith was arrested on June 19 by Constable Fred Simmons and held for investigation.

The arrest of Smith was the result of shooting done by a man supposed to be Smith and which endangered the lives of several autoists on the coastside on that date. Frank J. Bernardo of Halfmoon Bay was driving along the highway when the man who is supposed to be Smith shot several shots into Bernardo's car, injuring John Bettincourt of Halfmoon Bay, who was with Bernardo and breaking the windshield. Several other auto parties reported that a man had threatened them with a revolver and had attempted to hold them up.

No reason for Smith's actions has been found, and it is thought that he had become temporarily crazed or had partaken too freely of the cup that cheers and inebriates.

CALIFORNIA TRAVEL MAGAZINE

The charm of travel along the Coast highway from San Francisco down the peninsula and on through the redwoods to Santa Cruz and thence on to Los Angeles is described and pictured in a new magazine just off the press called "Pacific Coast Travel." The first number the publishers say is but an indication of what will be done from month to month in picturing and describing the romantic, historic and beauty spots of the bay and the coast region. In all future numbers eight pages of rotogravure art pictures are promised. A few months ago the Coast Highway Association was organized and this magazine is helping in the publicity carried on by the association in its effort to make a large increase in the volume of travel and recreation all along the way fro mthe bay cities to Los Angeles and San Diego. The circulation is 25,000 copies monthly, reaching all places where travel information is sought.

There are special stories and pictures about the Santa Cruz Beauty Pageant, the Salinas California rodeo, the Santa Barbara Old Spanish Days and other things, all making a number of great interest. Maps of the route along the coast, peninsula and bay are also given, which are a great help to motorists. The cover is a handsome one in four colors, depicting an ocean shore scene along the highway. The magazine sells for 15s cents a copy or $1 a year by mail, and is issued from 300 Broadway, San Francisco.

THIRTY YEARS AGO

June 29, 1895

Miss Winnie Lund is visiting her old friends, Mr. and Mrs. Charles Jacobus.

Mrs. J. M. Garrone is visiting with the family of County Clerk J. F. Johnston.

Rev. L. D. Rathbone starts on Monday for a trip to Yosemite. He will be absent about two weeks.

James Crowe, who was delegated some time ago to secure names to the petition asking for a union high school, states that the required number of signatures has been obtained in the respective school districts. In his canvass of this district Mr. Crowe encountered very little opposition, everyone appeared to be very enthusiastic over the proposition of having a high school at the county seat. The petition will probably be presented to the superintendent of schools next week.

George Johnson, secretary of the Grand Lodge F. & A. M. of California, and family, who have been guests of Mr. Campbell at his camp in Wellesley Park, returned home Monday.

Fourth of July will be celebrated in the good old fashion way at La Honda, an oration in the afternoon by James T. O'Keefe, singing of patriotic songs, duetts, dancing, music by an orchestra, etc., fire works in the evening to be followed by a grand ball in Sears hall. Everybody is cordially invited.

TELEPHONE PHOTOS AT EVERY DAY PRICES

According to a new schedule charge now effective, telephotographs are available at "everyday prices." The schedule as announced by The Pacific Telephone and Telegraph Company includes weekly contract arrangements whereby "a-picture-a day" may be sent at greatly reduced charge. "Even the occasional individual picture telephotographed from San Francisco to Chicago and New York or vice versa will now be considered inexpensive in view of the practical value of the new art in everyday business and social life of the nation.

"Sending pictures by long distance telephone lines from San Francisco to Chicago and New York may soon be a part of the daily program of many businesses and individuals," said Manager J. D. Worthington of The Pacific Telephone and Telegraph Company here today in announcing a revised schedule of charges for commercial use of this new art.

"When transcontinental telephotograph service was first opened to the public early in April little information was available as to the possibilities of adjusting its use to the needs of everyday business, although the true character of long distance picture reproduction was fully demonstrated with the presidential inaugural pictures and subsequent tornado photographs widely published on this coast.

"Since the opening of the San Francisco Telephotograph office, many new and practical uses for such transmission of photographs have been developed and much study has been given to better fit this new factor in rapid communication, its method of operation and charges therefor to the everyday requirements of newspapers, pictorial associations, police departments, the medical profession, banks and trust companies, clothing and other manufacturers and many national organizations, advertising agencies, etc., as well as individuals."

THE NEWEST PROFESSION AND ONE WHICH THE PUBLIC SHOULD BE MOST DEEPLY INTERESTED IN IS THE "REALTOR" The present real estate broker looks upon the title in the same light as a doctor or an attorney does his title. The REALTOR therefore, is zealous to maintain the high standard of his calling. He is more than a real estate man; he is a licensed broken and creator of homes, builder of cities, developer of industries and farm lands. Above all he interpretes the golden rule in his modern business dealings.

Once just a Summer necessity—Now unsurpassed for all-year cooking!

THE modern oil-cookstove, with its wonderfully efficient speed-burners, perfected ovens and broilers, heat control, simplicity of parts, etc., gives you city cookstove service *anywhere*, and the year-*'round!* No mussy fires to tend—noiseless, simple, *safe!*

But remember there's a *big* difference in kerosene and that the efficiency of your oil cookstove depends very largely on the kerosene you use.

"Pearl Oil" means the "*best*" oil for oil cookstoves and heaters. It is refined and re-refined—that's why it's cleaner-burning, delivers flame that's all *heat* and why it *won't* corrode the metal parts of your equipment. Enjoy your oil cookstove to the utmost—be *sure* you order "Pearl Oil" by *name!*

Cleaning Without Odor by the

F. Thomas *Process*

Our many years of experience has taught us that it is impossible to do perfect cleaning with cheap, inferior methods. That is why we found it necessary to invest nearly $500,000 in the equipment of a plant and the establishment of an expert organization to do the quality of work demanded bp our customers.

With the "F. Thomas Process" we not only remove every particle of dust but we return your garments without that usual disagreeable smell of gasoline. Every drop of gasoline we use in cleaning is redistilled and very highly refined.

Raw gasoline—the kind that you buy for your automobile—is full of heavy oils and unfit for cleaning fabrics. t is little better than ordinary distillate and leaves a sickening gasoline smell in your clothes.

HOMEMADE FLOWER STAND IS CONVENIENT

A Homemade Flower Stand in Use on a Virginia Farm.

(Prepared by the United States Department of Agriculture.)

A farm woman living in Albemarle county, Virginia, extended to several other rooms in her house the improvement made in her kitchen under the stimulus of the contest organized by the extension forces of the state agricultural college and the United States Department of Agriculture. Lacking some of the furnishings she wanted, and living too far from shopping centers to buy them, she managed to make a number of pieces herself, out of ordinary lumber and with simple tools. Among these was a very convenient window stand for flowers, long enough to hold several pots of plants, which make the entire side of the room look charming. Any woman who can handle a saw, hammer and plane might attempt a simple flower box like this, made to fit the dimensions she requires. An oblong pan of tin sheeting, soldered at the corners, is necessary in the bottom of the box. The finished stand may be stained to suit the other furnishings.

DOGS RELY LITTLE ON THE EYESIGHT

Seem to Be Guided Only by Sense of Smell.

Many hunters believe that a good old-fashioned "hound dog" is capable of following a trail ten or twelve hours old. But the definite recorded information is scant indeed. It would be interesting to know just how long after a trail was made a dog is able to follow it with accuracy. Also, we should all like to know to which groups or classes of smells dogs are most sensitive.

You may have observed that a dog never pays any attention to a portrait of another dog, or of his master. Even his own reflection in a mirror may leave him unmoved. Most of his power of sight seems to go to waste. Dogs have for generations dwelt in a world of smell. With us, seeing is believing. But with dogs, smelling is believing. I suppose nearly every dog owner has noticed that if his dog gets separated from him on the street and becomes slightly excited or bewildered he might as well be blind. He ceases to depend on his eyes and can look right at his master without seeing him. He must identify his master by scent. Many dogs are quick at catching a ball and are accurate in grabbing at small prey, such as rats or mice that try to dodge them; but there is a sense of experimental and other evidence to show that a dog's eyesight is not keen at perceiving small objects not previously brought to his attention. Indeed, there is evidence that the average dog makes much less use of his eyes than is popularly supposed.

Does a dog sitting on the kitchen steps ever happen to look across the back yard and see a bone that has been thrown out for him? No, he probably doesn't find the bone until he happens to go near enough to smell it. But if another dog runs across the yard, he sees that, because it is too conspicuous even for his untrained eyes to miss.

Dr. John B. Watson, formerly chief psychologist at Johns Hopkins university, brought up a litter of puppies with several kept in a dark room until three or four months old. These practically sightless dogs got along just as well as the others. They were able to find their way about, open doors, and sense directions the same as any average puppy. One even learned to jump a rope! The point is that they didn't miss the lack of eyesight, because they wouldn't have used their eyes much anyhow.—Fred C. Kelly in Collier's Weekly.

Modern Setting

An Emporia school teacher was attempting to familiarize her pupils with the picture of Mona Lisa, by weaving about it a romantic story.

"Do you see the strange background of the picture, children?" she said. "Now where do you suppose Mona Lisa was sitting to have that strange view at her back?"

A youngster in the back row was puzzled only for a moment. "I'll bet she was drying her hair on the sleeping porch, out in the country," he volunteered.—Emporia Gazette.

Blind Not All Dependent

Out of 800 blind people in New Zealand, only 87 have applied for the pension granted by parliament. The explanation is that they are able to make a good living in various ways.

NEWS OF MENLO PARK

Work on the proposed new buildings at the base hospital will start some time next week. An administration building and the personnel structure are to be quite imposing affairs and will cost over two hundred thousand dollars. A deep artesian well is to be drifted which with the other well, will meet the demands of the hospital and the grounds. A large lawn is to be planted that will spread over the entire front area, making the grounds the prettiest of any institution in the state.

All the talk about the recall of Supervisor MacBain is bosh. The matter was never spoken of in any of the meetings since the supervisors decided upon the limited territory for the proposed incorporation and was never contemplated by the people of Menlo Park. Such an action would be preposterous. The idle talk was started by the San Francisco papers who are always looking for and printing sensational nonsense.

James T. O'Keefe and family motored over to Guernoville on Thursday for a month's vacation. They have taken a cottage in the tall redwoods of that delightful place where bathing and fishing are excellent.

Miss Grace Carleton and Miss Cecelia Carleton are spending their annual vacation at Lake Tahoe. They will be gone for two weeks.

It is reported that the Miss Carletons have sold their pretty estate at Atherton to San Mateo parties. If the place is disposed of the young ladies will remove to Burlingame, where they have other properties. It is said a big figure has been secured for the holding.

Mrs. Gehman has purchased the San Francisco news paper agency and has built up a lucrative business. Mrs. Behman is a resident of Atherton.

Carli Brothers of Redwood City have leased the Menlo Park garage, owned by W. J. Murray. These gentlemen are experts in the business and promise the public a splendid service. They will give storage service day and night for the accommodation of the people. This is what the people have been wanting for some time and it is to be hoped the new concern will be well patronized.

The many friends of J. D. Brennan here will be pleased to learn of his promotion from trainmaster of the coast division of the Southern Pacific railroad Company to assistant superintendent of the company's Shasta division at Dunsmuir. During the war he was here routing all trains out of Camp Fremont and became well known in Menlo Park. At one time he was a conductor on the local division and was well known to all commuters.

The death of Mrs. Mamie Mitchell at San Jose last week recalls her youth here, when she was the pretty Mamie Bohn. She is pleasantly recorded in the annals of Menlo's past. Mrs. Mitchell usually spent her summers with the Misses Sullivan, at the Latham estate, now the Hopkins home. She was a winsome, pretty girl, with locks of golden hair and matchless dark eyes. She was the life of all local dances and none would be complete without her presence. Miss Bohn was courted by all local young men many of whom are now od and gray with families grown and gone to other parts. Such is life in all its vagaries All old timers now remaining on this mundane sphere will recall the pretty Mamie Bohn of thirty years ago, and the winsome Sullivan girls with whom she chummed in her girlhood. Mr. Mitchell was a widow, leaving three grown children. Many many years she made her home at San Jose.

Harry Morey and family and the family of Boyd Braden are at Santa Cruz for a two weeks' vacation. There is quite a Menlo colony at the seashore, all enjoying the salt breezes of that wonderful place.

Mrs. Henry Smith and daughter, Miss Rosalie, will spend the holidays at Tahoe Tavern on Lake Tahoe with a few friends from Palo Alto.

The following marriage license was issued at San Jose last Wednesday: John F. Boos, 31 ,Redwood City and Margaret H. Davis, 23, Menlo Park.

A. J. Stebenne of Redwood City has been retained by the people of Menlo Park to bring suit to determine the discretionary powers of the board of supervisors in the Superior court. he complaint will be filed next week and the case may go to the highest tribunal for a final determination. The decision of the supervisors in cutting down the boundary lines of the proposed incorporation will be attacked from every angle. This portion of the statutes regarding the incorporation of a town of the sixth class has never been passed upon by the courts, so the suit will be watched with interest by attorneys and others.

The Rev. and Mrs. Hugh Montgomery of Stockton, formerly of Menlo Park ,are among those sailing from San Francisco tomorrow on a cruise to Alaska.

A big meeting of the people of Menlo Park was held in the Kuck hall Thursday night to arrange the details for the litigation to be commenced next week in the Superior court against the board of supervisors. Mr. Cain, a retired attorney of Palo Alto and Attorney Stebenne addressed the meeting. Another meeting is to be held in the same hall on next Thursday evening. A big attendance is urged.

By an overwhelming vote the City of Palo Alto has taken into tis municipality the ancient town of Mayfield, which will now lose its indentity and lapse into oblivion, as far as its personell is concerned. Hereafter it will be known as Palo Alto. Mayfield is one of the oldest towns on the peninsula. Many Germans settled there as early as 1856. Mr. Otterson conducted the first hotel there at that period and did a prosperous business. It afterwards became inhabited by Mexicans and to this day many of the race reside there. In the seventies it was one of the liveliest towns in the state and later when the Stanford Stock Farm was in full blast when hundreds of employes spending their money in the village it was a busy place. This was before Volstead was known and the saloons ran wide open. They sure did a thriving business in Mayfield and when the Stanford students began visiting the booze emporiums the university by an act of the legislature closed up all the saloons within a radius of a mile of the university grounds the Mayfield saloon men moved to other parts. Mayfield has a wonderful history. It was a flourishing village many years before Palo Alto, Burlingame, San Carlos and other peninsula towns were ever dreamed of. No doubt many of the old settlers there will weep and shed bitter tears at the merging of the bailiwick.

The tool house of the contractor, Mr. Follmer, erecting the new stores for the Mercantile Trust Company of Palo Alto was broken into last Thursday night and a large quantity of carpenter tools removed. It was pried open when the workmen arrived on the job yesterday morning. They could not proceed with their work until tools were received from Palo Alto.

E. J. McLaughlin during the week received the sad intelligence of the death of his aged mother which occurred in Ireland on May 23. Mr. McLaughlin's brother was here from Nevada on May 1st on his way to the old country to visit his mother, but did not reach her home until after she was buried. He had not seen her in eighteen years. She longed to see her boy before the passd out from this life, but her wish was not gratified. Mrs. McLaughlin is survived by six children, many of whom live in the United States. Mrs. McLaughlin had reached the ripe old age of 76 years.

Yesterday morning the club house across the creek in the Palo Alto athletic field was entered by two young boys and seven bseballs, five bats, two gloves and other paraphernalia were removed. These supplies were the for the big game today between the Burlingame team and the Palo Alto nine.

WOODSIDE

Covington Pringe and family left home here on Wednesday for a month's trip into the Sierras. They will spend the greater part of the time at Salmon lake in the Feather river sector.

Dr. Bradford Leavitt and family arrived at their home in Woodside on Tuesday afternoon. Dr. Leavitt left Pasadena at six o'clock on Monday morning, coming by way of Santa Barbara and the coast route. They arrived at Santa Barbara an hour and a half after the earthquake but being unaware that any shake had taken place they rested for a half hour on the beach before they discovered the havoc that had been wrought within a block or two of where they were sitting.

J. M. Litchfield with his wife and mother were in the Arlington hotel at the time of the quake and barely missed being buried in wreckage from the wall that fell into and partially filled the room that they occupied. He was obliged to carry his mother out of the swaying building and later, returning to the room, he was obliged to dig for several hours to recover their possessions that had been covered feet deep by the crumbling walls. They returned at once to Woodside having concludede that this was the safest as well as the most comfortable place in which to spend the balance of their vacation.

Burton Barteaux, an employee of Neuman Bros. was struck by a south bound Southern Pacific train at the Main street crossing in Redwood City on Wednesday. The car which he was driving was demolished and he was thrown from the railroad tracks to the sidewalk,

San Carlos Folks And Local Events

Mrs. S. Flatton of San Mateo was a visitor in the home of Mrs. T. D. Ruggles on Wednesday.

Mr. and Mrs. M. Cahill and family are spending their vacation at their home on Chestnut street.

The Friday evening social dances held at the Devonshire Community Center Lodge have been discontinued until the clubhouse which is now under construction is completed.

The burlesque and dance given on last Friday evening by the San Carlos Parent-Teacher Association was a huge success. Over 250 people attended, taxing the capacity of the auditorium.

Mrs. L. P. Hopkins was chairman of the affair, being assisted by Mrs. Harry Wilson, Mrs. Harry Gee, Mrs. O. D. Fairfield and Mrs. J. M. Edling and several others.

The program was as folows:

HELP MAKE FOURTH EASY FOR FIREMEN

The Fourth of July is usually a trying time for the fire department, and is generally anything but a holiday. Much of the fire hazard is due to the dry condition of the grass and brush, which makes a small fire spread rapidly. During July and the other summer months, the fire department has a hard enough time of it. If you can help them by being careful they will appreciate it. The following is a list of the alarm boxes in Redwood City. Know where your box is and never hesitate to call for help, if even a small fire threatens to get away and do damage. All large fires were small at first.

JUSTICE'S REPORT FILED

—ooo—

Julge Ray Griffin has compiled his semiannual report as justice of the peace for the Third township. It shows a wonderful growth of the business of the office during the past six months. During June the sum of $6108 was collected in fines et cetra. Of this amount the sum of $5433 was alloted to the county, while the sum of $77.75 was turned over to the state. The amount received since January 1 to July 1 was $11,560 of this the county secured $9,663 and the state $2,025. The receipts for the six months just ended are double the amount received at this time last year. The business of this office is probably more that the rest of the justices of the county combined.

JULY SHOE SALE

PALO ALTO, CALIFORNIA.
July 3, 1925.

Dear Friends:

In telling you of our July Shoe Sale, we wish to emphasize two points—STYLE and ECONOMY.

The Style Shoes which are so greatly reduced now are those which you will want to wear—this season's models. Naturally size ranges are incomplete, yet the variety of styles in each size assures a satisfactory choice.

The Economy of buying Thoits Good Shoes at all times, has been proven to hundreds through the long service which they get from our shoes. When these extra savings are added to such service the economy becomes greater than ever.

While the greatest reductions are made on Novelty Styles, there are worth-while savings on even plain staple shoes.

Our Guarantee as to Quality and Workmanship and our usual Good Fitting Service goes with each sale just as though they were regularly priced. But on account of these Specially low prices and because the object of this Sale is to "clean house" we do not allow asles goods to be CHARGED, EXCHANGED or RETURNED.

Yours very truly,
THOITS BROS.
